

Bionote:

Prof Jasmine Siu Lee Lam from Nanyang Technological University (NTU) Singapore, is heading the Maritime Energy and Sustainable Development Centre of Excellence as Centre Director. She is also Director of Maritime Studies Programme at NTU. Her major research areas are energy, innovation, maritime logistics, and sustainable development. She has been invited by various organisations, port authorities, companies and universities as a key speaker at international conferences. Leading a R&D team and working closely with the industry and government agencies, Jasmine has completed over 40 projects and has more than 200 scientific publications including about 100 top-tier refereed journal papers. She serves as the editor/board member of 10 international journals, including Maritime Policy & Management (as Associate Editor), Journal of Supply Chain Management, Transportation Research Part D and Part E. She is a member of BNP Paribas Fortis Chair international scientific committee. Furthermore, Jasmine is the recipient of many awards, including Best Paper Awards, Erasmus Mundus Faculty Scholar Award awarded by the European Commission, and National Day Award from the Prime Minister's Office in Singapore.
